# Mid-West® Instrument
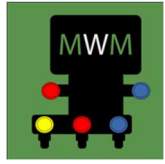

# MODEL 855 DIGITAL TEST KIT QUICK START GUIDE

1. Download the app from the app store by searching for "MACHBACKFLOW" or scan the QR Code.
2. The app will have the icon shown on this page.
3. Register your account by going to https://www.machbackflow.com/sign-up.
4. A confirmation email will be sent to set your password. Be sure to check your junk folder!
5. Open the MACHBACKFLOW app and sign in using your email and password.

Set up the tester information by opening MENU and SETTINGS and clicking UPDATE TESTER INFO. This is where you will enter the necessary information for generated PDF test reports, including the tester's certification number and signature.

NOTE: Loading times of the completed tests and assembly database upon first logging into the app may vary depending on the strength of the Wi-Fi or cellular connection and the number of assemblies. If a cellular connection is used, data rates may apply.

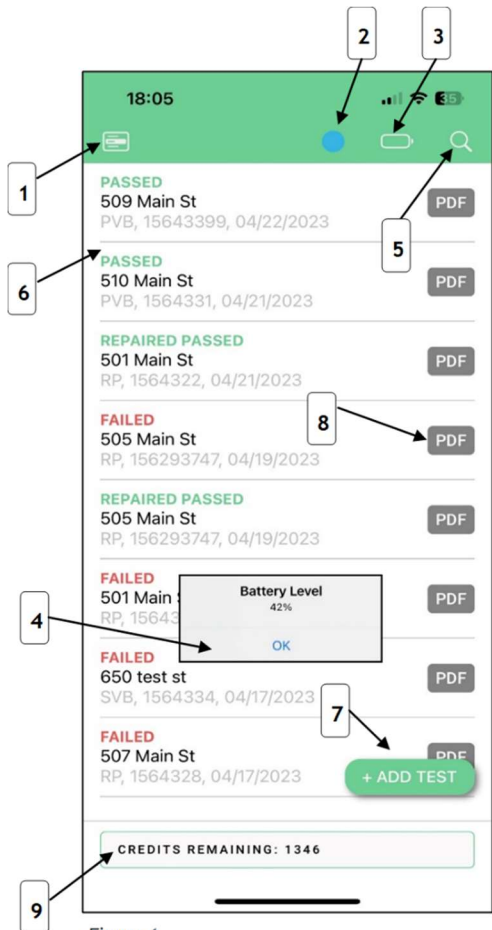

Figure 1

1. **Menu**
Used to access app settings and filter test results on the home screen.
2. **Test Kit Connection**
Used to search for Test Kits and connect/disconnect from different Test-Kits
3. **Test Kit Battery Level**
Used to read the current Test Kit battery level. (Click to Display Level)
4. **Battery Level Pop-up Display**
5. **Test Results Search**
Used to search for saved test results.
6. **Completed Test Results**
Shows saved test results (shows a summary of address, assembly type, assembly serial number, and test date)
7. **Add Test Button**
Used to start a new assembly test.
8. **PDF Icon**
When a PDF has been generated, select the gray PDF icon to view/share the generated PDF for the test.
9. **Credits Remaining**
Shows the number of credits the user has remaining.

Additional information can be found in the 855 DIGITAL TEST KIT OPERATION MANUAL by going to https://www.machbackflow.com/resources
